However in the majority of districts the sen-timent in favor of such a levy is assuming such proportions as to give us reasonable ground for hope that, before two more years will have expired, this levy will be made by the greater portion of the County. Within the last year the city of Sumter has levied an extra two-mill tax for the support of a graded school and such a school has been in successful operation for the past year. Within the last year the town of Mayesville, by reason of an extra two-mill levy has increased the length of her public schools from three and a half to seven months. That the experiment has proven satisfactory is evidenced by the fact that within this week the extra levy has been made again for the next year. The school district of Swimming Pens also has recently levied an extra two-mill levy for school purposes during the ensuing year which will result in doubling the length of her public school term.
